

**UNLOCK
THE
WORLD
AROUND
YOU**

GEOKEY

THE WORLD'S FIRST MULTI-DIMENSIONAL MOBILE ACCESS SOLUTION.

THE PURPOSE

We provide peace of mind to you and your business. Know who is entering and accessing your goods or services. Our purpose is to bring the mobile access world into the 21st century.

PATENTED TECH

We own the patent that utilizes your location services on your mobile device to unlock any access point you need unlocked.
Hence the name Geokey, a geolocated key.

THE PRICE

We give you unlimited users. Geokey is adaptable for your growth because we charge per door not per user. It is always one affordable price no matter how many users, members, or employees you have.

OUR AUDIENCE

We work with companies of all shapes and sizes. Including multi-family, gyms, manufacturing plants, restaurants, at-home patient care, and logistics companies.

WHAT WE DO

TAKE SOMETHING COMPLICATED.
SIMPLIFY IT.

1
SWIPE

2
UNLOCK

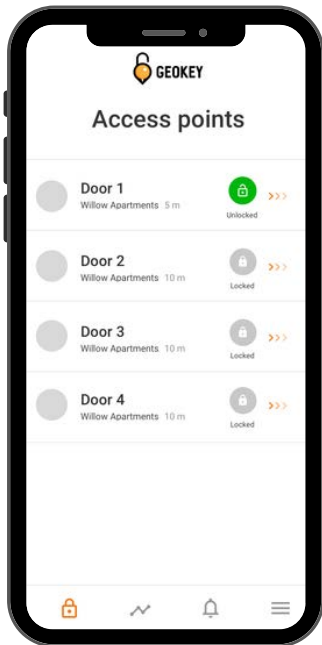

3
TRACK

KEY FEATURES

-  Ability to unlock from your mobile device
-  Send Geokeys with ease right to users' phones
-  Data tracking and analytics for better business decisions
-  Geokey is the first key that can speak to you by sending notifications to all users

MOBILE APP

LIST TAB

Shows the list of access points you have under the “list” tab. The closest access point will populate at the top of the list .

MAP TAB

Gives you a real time map of where you are and what access points are in the area

OVERVIEW TAB

Gives you an easy-to-read synopsis of your activity

USER ROLES

Geokey provides four different user roles to control access levels.

- Representative
- User
- Manager
- Admin

UNIQUE IDENTIFIER

Unique identifier is your phones email and MAC address. This means enhanced security because you cannot transfer credentials

ENHANCED SECURITY

Another way of enhanced security, you must open the app and swipe right on the given access point you wish to open. The doors will not unlock by just walking by – which prevents someone entering an access point in the same vicinity. Whether intentional or accidental.

CUSTOMIZABLE

We brand your name and logo in the app.

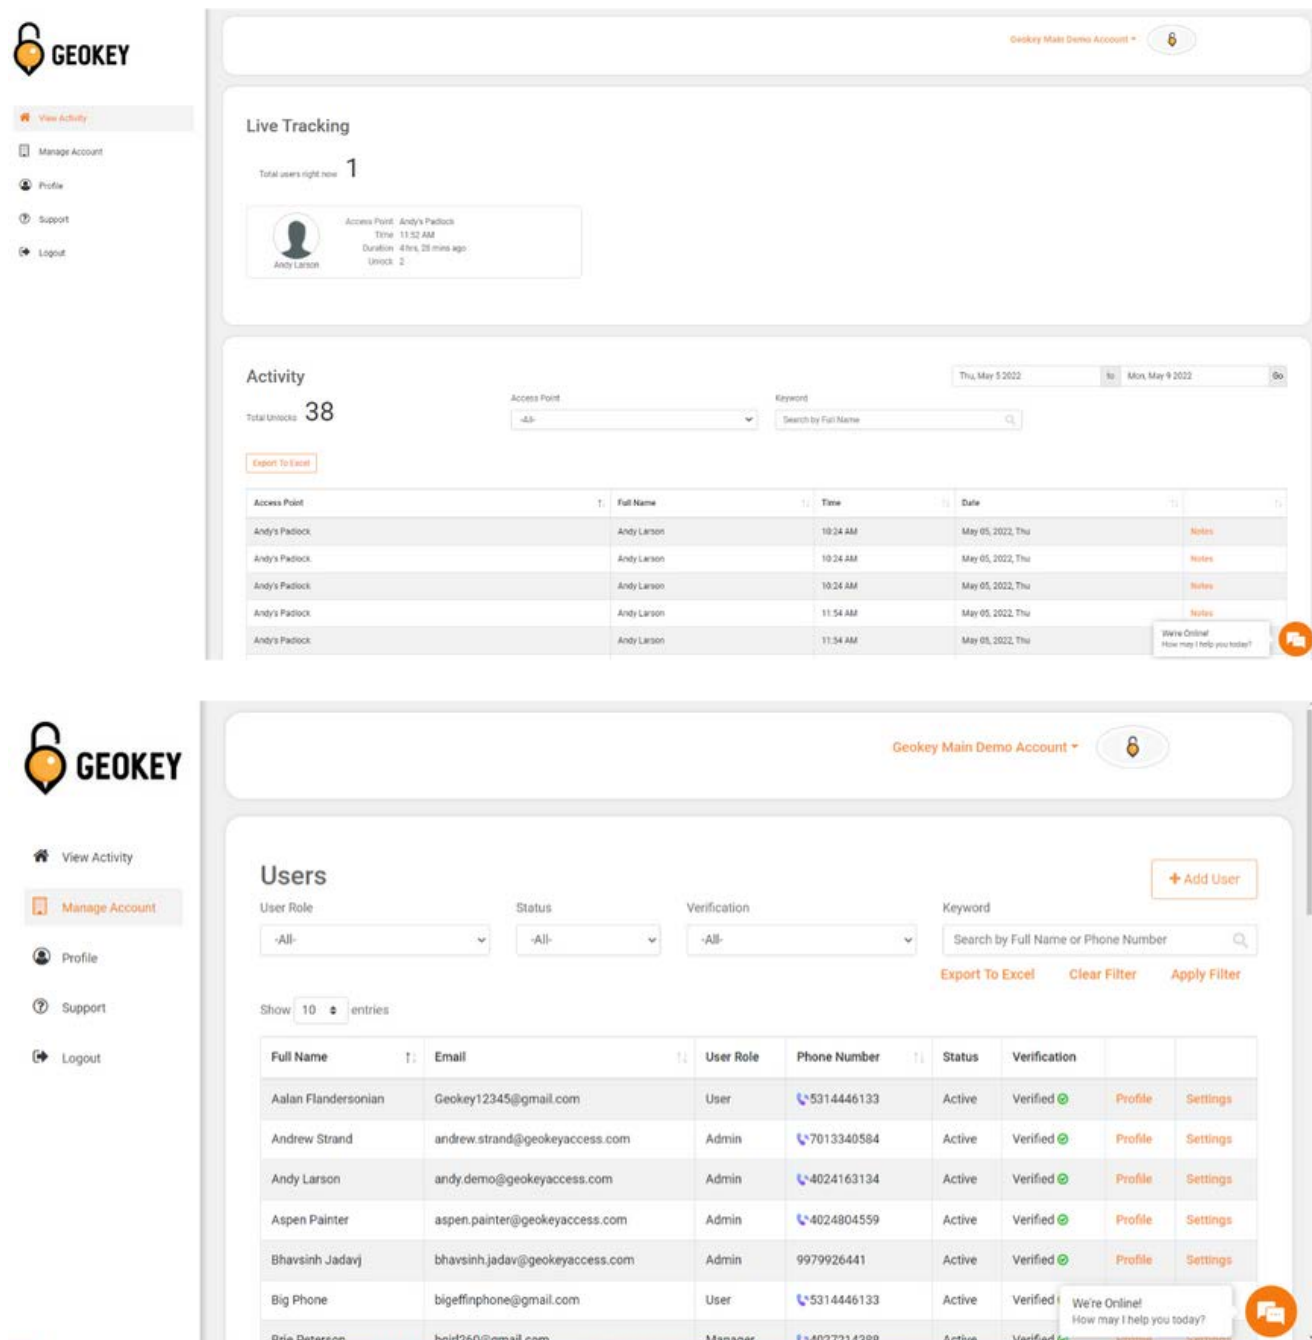

COMPATIBILITY

iOS: 11.0 or later
Android: 8 and later

THE DASHBOARD

VIEW ACTIVITY PAGE

This is 100% cloud based – so it can be accessed from anywhere including phones, tablets, or laptops.

The screenshot displays the Geokey dashboard interface. The top navigation bar includes the Geokey logo and a user account dropdown labeled 'Geokey Main Demo Account'. A sidebar on the left contains navigation links: 'View Activity' (highlighted), 'Manage Account', 'Profile', 'Support', and 'Logout'.

The main content area is split into two sections:

- Live Tracking:** Shows 'Total users right now: 1'. A card for 'Andy Larson' displays details: Access Point: Andy's Padlock, Time: 11:52 AM, Duration: 4 hrs, 20 mins ago, Unlocks: 2.
- Activity:** Shows 'Total Unlocks: 38'. It includes filters for 'Access Point' (set to '-All-') and 'Keyword' (set to 'Search by Full Name'). A date range is set from 'Thu, May 5 2022' to 'Mon, May 9 2022'. An 'Export To Excel' button is present. A table lists activity entries with columns for Access Point, Full Name, Time, Date, and Notes. A chat bubble in the bottom right corner says 'We're Online! How may I help you today?'.

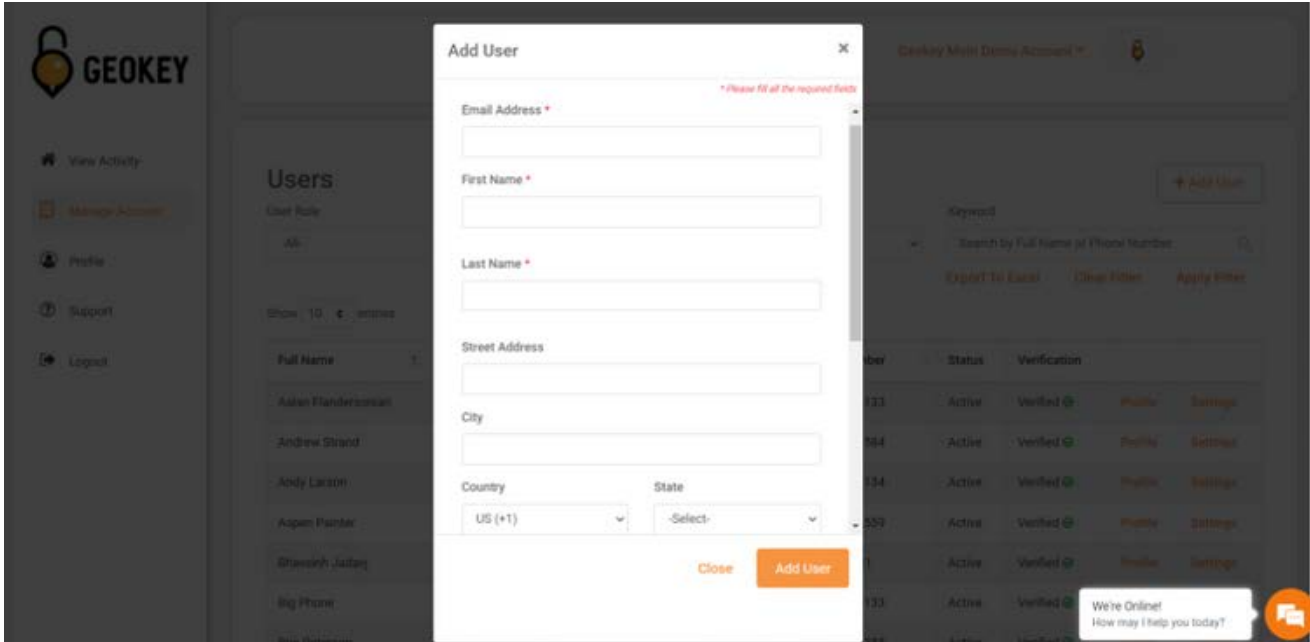

The second screenshot shows the 'Users' management page. It features a '+ Add User' button and filters for 'User Role' (set to '-All-'), 'Status' (set to '-All-'), and 'Verification' (set to '-All-'). A 'Keyword' search field is available. Below the filters are buttons for 'Export To Excel', 'Clear Filter', and 'Apply Filter'. A 'Show 10 entries' dropdown is also present. The main table lists users with columns for Full Name, Email, User Role, Phone Number, Status, and Verification. Each row includes links for 'Profile' and 'Settings'. A chat bubble in the bottom right corner says 'We're Online! How may I help you today?'.

Full Name	Email	User Role	Phone Number	Status	Verification	Profile	Settings
Aalan Flandersonian	Geokey12345@gmail.com	User	5314446133	Active	Verified	Profile	Settings
Andrew Strand	andrew.strand@geokeyaccess.com	Admin	7013340584	Active	Verified	Profile	Settings
Andy Larson	andy.demo@geokeyaccess.com	Admin	4024163134	Active	Verified	Profile	Settings
Aspen Painter	aspen.painter@geokeyaccess.com	Admin	4024804559	Active	Verified	Profile	Settings
Bhavsinh Jadavj	bhavsinh.jadavj@geokeyaccess.com	Admin	9979926441	Active	Verified	Profile	Settings
Big Phone	bigeffinphone@gmail.com	User	5314446133	Active	Verified	Profile	Settings
Brie Peterson	boif260@gmail.com	Manager	4027214388	Active	Verified	Profile	Settings

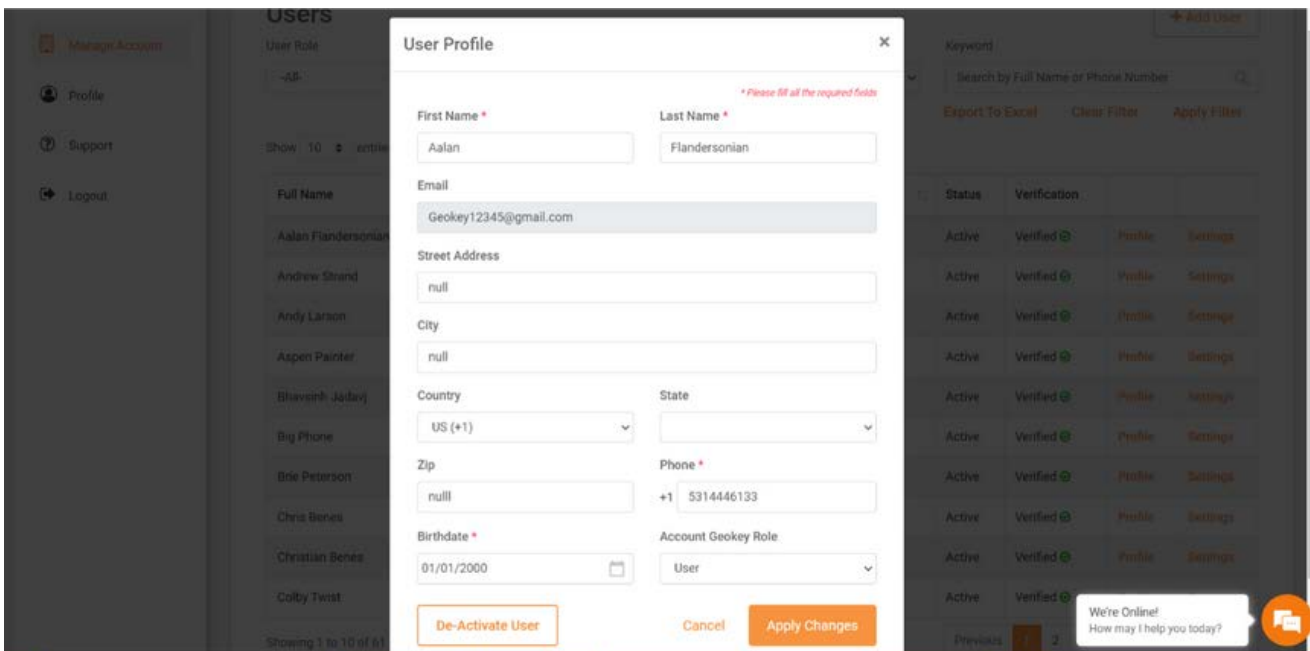

ADDING A USER

Adding a user is simple, we just need “the big four”: email, first name, last name, and phone number. No address needed.

DEACTIVATING A USER

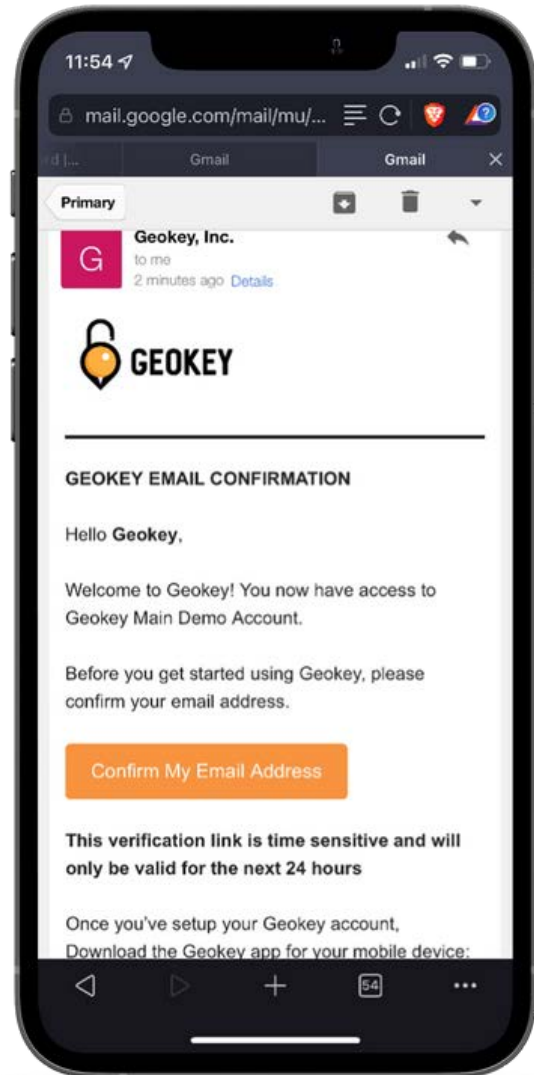

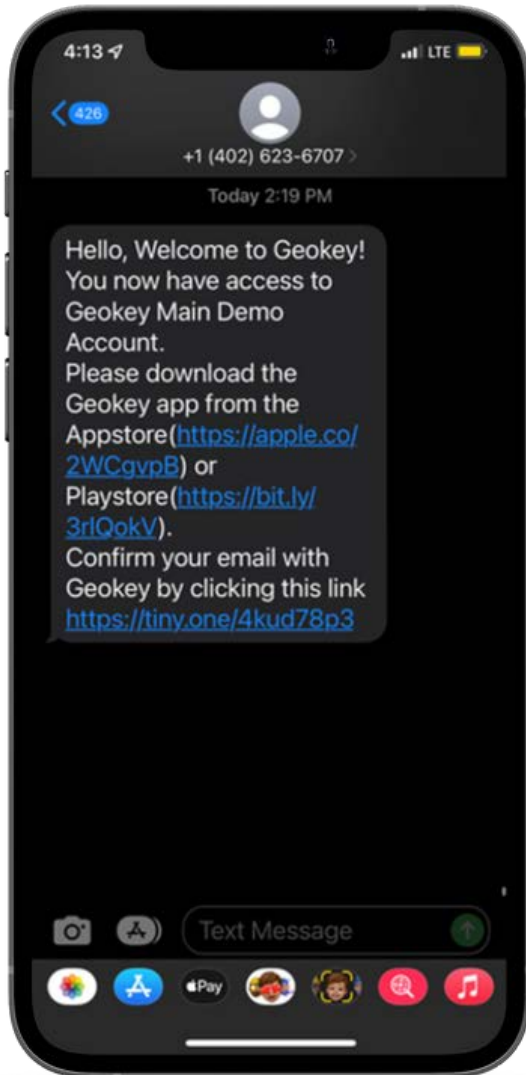

Deactivating a user is simple. Manage account tab → user profile → deactivate user. The second you deactivate someone; they will not be able to get in any door.

REGISTERING A USER

They will get an email and a text. All they need to do is click the link within 24 hours and follow the prompts and they get registered. Simple as that.

CREATE A USER ROLE

You can create a user role specific time schedule that controls when users, representatives, managers, and admins can get in the access point.

Setup Schedule

Note: All changes are auto-saved

Andrew's Padlock	null, Williston, ND, 68025	29	Settings

We're Online! How may I help you today?

CUSTOMIZE YOUR PORTAL

You will put all your contact information in the profile tab. Additionally, we will put your company logo in there and custom brand your access points in the app using your logo.

Profile

 * Please fill all the required fields

Account Name * Full Name * Email Address *

Street Address * City * Country *

State * Zip * Phone *

Account created Primary Phone *

Billing address is same as business address

Billing Street * Billing City * Billing Country *

Billing State * Billing Zip * Geokey Role *

MULTIPLE BUSINESSES? NO PROBLEM

If you have multiple businesses, you are also able to switch the account you are viewing – you will be able to sort out all your different access point locations, businesses, business specific users, and access points.

The screenshot shows the GEOKEY dashboard interface. On the left is a navigation menu with options: View Activity, Manage Account, Profile, Support, and Logout. The main content area is divided into sections. At the top right, there is a dropdown menu for the current account, 'Geokay Main Demo Account', with a search bar and a list of accounts including 'Geokay Main Demo Account' and 'Riemer Systems'. Below this is the 'Live Tracking' section, which shows 'Total users right now: 5'. It contains five user cards, each with a profile picture, name, access point, time, duration, and unlock count. The 'Activity' section below shows 'Total unlocks: 33' and includes filters for 'Access Point' (set to '-All-') and 'Keyword' (set to 'Search by Full Name'). There are also date range selectors and an 'Export to Excel' button.

SECURE

Account and Device authentication – your phone gets a unique identifier so no one else can use your key

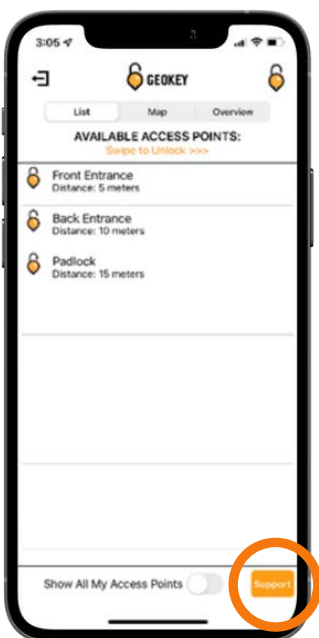

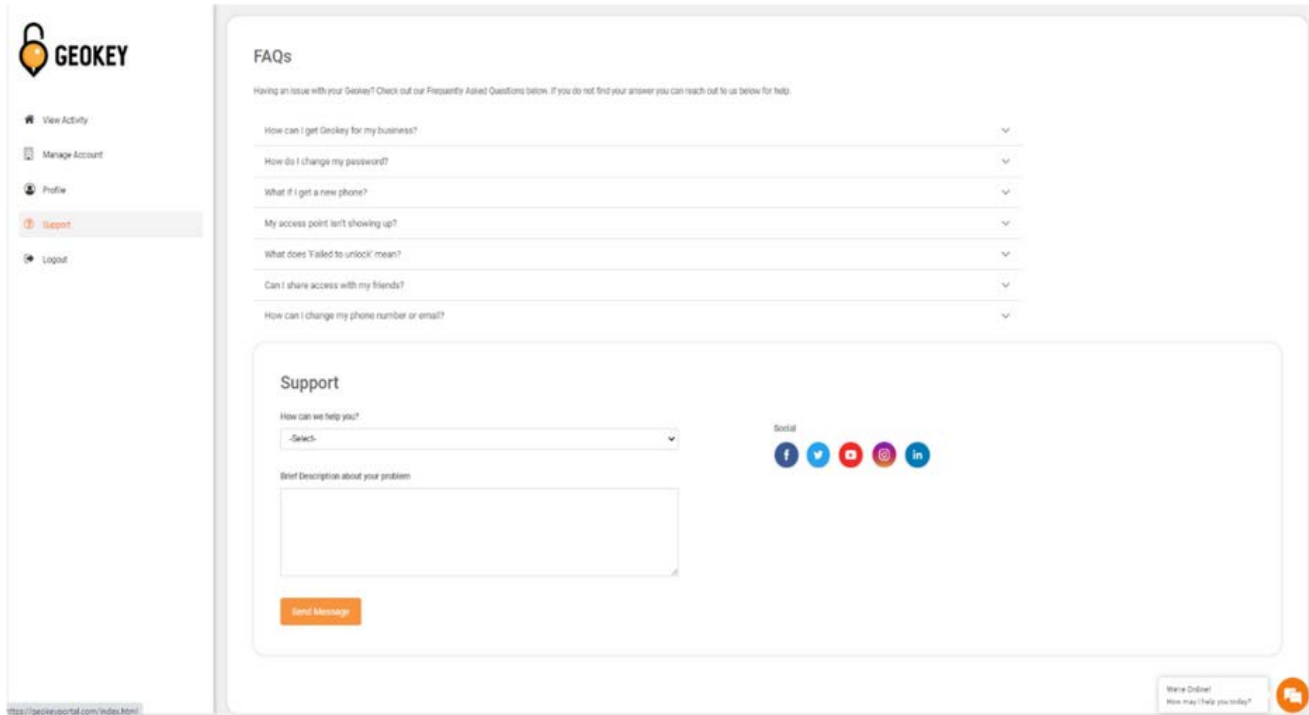

Secure device enrollment

End to End Data Protection – we are backed up by Microsoft Azure

Secure Password Encryption

GEOKEY SUPPORT

We have multiple ways you can reach out to our support team: via chat, call, and putting in a ticket.

We can use our training tools for deeper insight into problems user can experience to expedite the troubleshooting process when handling support tickets

Our onboarding is second to none. Once you sign up through Geokey, you will get an Onboarding Support Specialist to take you and your team through training, app set up, and answer any questions you may have

SUPPORT HOURS

MONDAY - FRIDAY

6:00am - 9:00pm

WEEKENDS

9:00am - 6:00pm

Outside of these hours, it is by ticket and monitored outside of office hours.
