

Smart Locking Cabinet

RIEMER
SYSTEMS

Overview

The Smart Locking Cabinet is unlocked via the Geokey Bluetooth smart phone app and managed remotely to track authorized users. Ideal for critical items in healthcare, research, and general industry.

Riemer Systems manufactures the hardware and Geokey administers the smart lock. There is an initial one-time fee for the cabinet & a monthly subscription fee to activate Geokey lock.

Features

- Keyless Mobile Access - No more keys, just your smartphone. A simple swipe to open is all it takes.
- Online Portal - Full management software to send, retract or limit Geokey access for each user.
- Data Analytics - See who is accessing the cabinet and when, graphs, trends, and much more.
- User Experience - Simple to send users a text to login. Easy to get started and even easier to use.

Simple

Our smart cabinets are secured with Geokey keyless locks, so you know where your secured medications and equipment are at the time of need.

Secure

Comes standard with a keyless lock and an easy to use Geokey lock. A simple app download and swipe is all you need to get started.

Smart

Control who can have access, at what time, and on what day. Give access to unlimited users and document access with audit trail.

Features

- Made of white high-density Polypropylene.
- Exterior 6" D x 14" W x 16.75" H | Bottom shelf 5.5" D x 13.5" W x 8.5" H | Top shelf 5.5" D x 8.25" W x 6" H
- Door customizations include white for privacy, clear for ease of visibility, & frosted for ease of visibility while protecting patient information.
- Two ¼-20 flat head screw mounting holes in the back panel for a permanent mount (Screws not included).
- Cabinet is battery powered (no wiring needed) and uses a standard 18650 Lithium-Ion rechargeable battery (included). The average battery life is 3 months to 1 year. The battery is readily available and replaceable.
- Smart cabinet comes standard with convenient 120V (outlet) plug adapter mounted on the side of the cabinet. Used to plug in the cabinet to recharge the Geokey lock battery. Uses standard (3-prong) power cord - not included.
- GeoKey operating temperature of -40 to +176 Degrees F.
