

Tall Wall Mounted Locking Cabinet

Overview

The Tall Wall Mounted Locking Cabinet is the ideal keyless electronic medical locking cabinet to secure medications & other critical items in healthcare and hospitals, where you have limited flat surfaces to mount the locking cabinet or if you prefer the convenience of a wall-mounted locking cabinet.

Features

- Electronic Keypad Lock (requires 2-AAA batteries included) and has a low battery alarm feature.
- Safety backup key override lock comes standard on all units and is supplied with two metal keys.
- Standard with two ¼-20 flat head screw mounting holes in the back panel for a permanent mount (Screws not included).
- White PVC construction cabinet.
- Exterior dimensions: 14"W x 22.75"H x 4.25"D
- Approximate weight: 14 lbs.

Increase Safety & Infection Control

Improve Compliance

Secure Medications

Increase Efficiency
